

Industrial and Commercial Doors

Maintenance, Service and Repair

BID Group

Maintenance, Service and Repair

BID Group believe that the best way of attracting new clients is to look after our existing ones.

We achieve this through excellent customer service and a very high standard of workmanship.

BID also suggests a programme of routine servicing of all equipment to ensure that any potential problems are highlighted at an early stage to minimise costly future repairs.

BID Group is a leading supplier of service and repair solutions as well as a manufacturer and supplier of industrial doors, rapid roll doors, dock levellers, gates, barriers, and automatic doors. We service, maintain and repair not only our own doors and associated products but also those of other manufacturers.

With a network of qualified engineers strategically located, any emergency call out can be attended to in the quickest time, 24/7 365 days a year allowing for peace of mind.

Maintenance & Service

Servicing of doors and other equipment is seen by BID Group to be the most beneficial and cost effective measure of ensuring continued safe operation.

In the same way that you would have your car serviced at regular intervals to ensure reliability, having your doors serviced at regular intervals will help to prevent unwanted and potential costly breakdowns.

All service contracts are tailored to each individual sites requirements, to ensure you receive the best possible level of service.

In order to provide the best tailored contract, a member of our sales team will visit site and compile an inventory before providing you with a completely free quote which is without obligation.

Having your doors serviced and maintained regularly by BID Group ensures companies are meeting their obligations under the various H&S Regulations; Fire Precautions (Workplace) Regulations, Provision and Use of Work Equipment Regulations and Workplace (Health and Safety and Welfare) Regulations.

Repair

At BID Group, we provide and operate a comprehensive computerised asset register for all sites. This will include all site details, unique door identification, door type and specification. Our bespoke database system which is updated daily will enable us to provide accurate costings for each asset and save unnecessary call out visits.

With monitored repair costs, BID Group have the experience and expertise to ensure that cost effective solutions are provided.

BID Group have a 24 hour, manned, emergency callout and repair service, the call out team being qualified engineers who work with competitors products as well as our own on a daily basis. This experience results in the doors being repaired promptly and left in good working order or secured according to requirements.
